

The global fund for education in emergencies

ECW Executive Committee Meeting March 2021

Extending the ECW results framework to end 2022

Decision Paper

With the extension of the strategic period to 2022 ECW remains committed to the approved results framework.

Thereby the targets initially established for end 2021 are extended to end 2022.

ECW has the systems, programs and partners to reach children beyond the approved results framework. A review of the approved MYRPs and their targets shows that, with full funding, ECW could reach almost 14 million children through MYRPs and an additional 2 million children through FERs.

ECW calls on all partners to contribute additional funding to fill the financing gaps in the MYRPs and FERs either through the ECW Trust Fund or in-country.

Annex 1 contains the updated results framework.

ECW requests ExCom to:

- **To approve that ECW extends the existing targets to end of 2022.**
